DETAILED ACTION

Priority

Receipt is acknowledged of papers submitted under 35 U.S.C. 119(a)-(d), which papers have been placed of record in the file.

Specification

The lengthy specification has not been checked to the extent necessary to determine the presence of all possible minor errors. Applicant's cooperation is requested in correcting any errors of which applicant may become aware in the specification.

The title of the invention is not descriptive. A new title is required that is clearly indicative of the invention to which the claims are directed.

Claim Rejections - 35 USC § 102

The following is a quotation of the appropriate paragraphs of 35 U.S.C. 102 that form the basis for the rejections under this section made in this

Office action:

A person shall be entitled to a patent unless –

(e) the invention was described in (1) an application for patent, published under section 122(b), by another filed in the United States before the invention by the applicant for patent or (2) a patent granted on an application for patent by another filed in the United States before the invention by the applicant for patent, except that an international application filed under the treaty defined in section 351(a) shall have the effects for purposes of this subsection of an application filed in the United States only if the international application designated the United States and was published under Article 21(2) of such treaty in the English language.

Art Unit: 2655

Claims 6, 8 and 9 are rejected under 35 U.S.C. 102(e) as being anticipated by Nakajima et al (US 6,438,098).

Nakajima et al disclose an optical information recording medium which comprises of a ROM area in which pre-pits are arranged in a line in advance (pre-pits area with depth B, in Fig 7) and a recordable (writable) area in which groove is arranged (writable area with depth A). a pits with depth B are formed between pre-pits area with depth A, where B is not greater than A (Col. 6, line 45 to col. 7, line 10) and Fig 7).

With respect to claim 8, the depth of the pit is equal to the depth of the groove, since both having depth A (Fig 7).

With respect to claim 9, pit has a width not greater than a width of the groove (See Fig 7).

Allowable Subject Matter

Claims 1-5, and 10-15 are allowed.

Claim 7 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Art Unit: 2655

Conclusion

The prior art made of record and not relied upon is considered pertinent to applicant's disclosure.
